Product Description:

Checkpoint understands the needs of its customers and is committed to helping retailers grow profitably. Only Checkpoint provides retailers, and their suppliers, a complete combination of solutions to reduce theft, increase inventory visibility, and enhance the shopping experience for consumers. We will work with you to tailor a comprehensive loss prevention program that fits both your store environment and your budget.

EVOLVE Electronic Article Surveillance (EAS) Systems

The revolutionary system provides operational excellence with improved bottom line performance and a combination of new and advanced software, electronics, and firmware upgrades. EVOLVE is also the industry's first programmable EAS platform that allows retailers to obtain critical loss prevention data. This highly extensible platform was engineered to provide a clear upgrade path to add new capabilities such as RFID, advanced networking, booster bag detection, and easy integration with other loss prevention systems.

CheckView Digital Video Surveillance, Fire, And Burglary Solutions

These solutions aid in the protection of retailers' assets and improve safety for employees and customers. CheckView provides the most advanced digital video, intrusion, and fire/life safety solutions combined with the best 24/7 monitoring service in the industry.

Checkpoint @ Source Programs

A complete range of options for merchandise security, including soft labels and hard tags, applied at the point of manufacture, which reduces the need for costly in-store tagging labor.

Apparel Labeling Solutions

A full range of apparel tags, labels, and specialty trim provide retailers and apparel manufacturers with a single source for all their branding, labeling, and security needs. Managed in real-time through our global Internet-based Check-Net service, Apparel Labeling Solutions not only promote brand recognition and communicate important consumer information, but they also help protect against theft and counterfeiting.

CheckPro Shrink Management Software

Streamline and simplify with systems to automate your people-counting, in-store audit, and LP reporting functions.

Checkpoint Enhanced Performance (EP) Labels

New labels in smaller sizes with superior detection, specifically designed to protect products of all shapes and sizes.

OATSystems

The leader in RFID-based application software and middleware, OATSystems helps retailers achieve merchandise visibility, enabling retailers to reduce out-of-stocks, maximize on-shelf availability, reduce on-hand inventory, and increase sales and margins.

Alpha High Theft Solutions

The innovative Alpha S3 product line of keepers, spider wraps, bottle security, and hard tags helps keep products on open display.

Checkpoint products, policies, and procedures are part of the company's Environmentally Committed Organization (ECO) program, a company-wide initiative to deliver products and services to customers in an environmentally friendly way. The program covers a wide variety of eco-friendly products and services, all of which can be identified by the ECO logo.

Company Overview:

Checkpoint Systems is a global leader in shrink management, merchandise visibility, and apparel labeling solutions. Checkpoint enables retailers and their suppliers to reduce shrink, improve shelf availability, and leverage real-time data to achieve operational excellence. Checkpoint solutions are built upon 40 years of RF technology expertise, diverse shrink management offerings, a broad portfolio of apparel labeling solutions, market-leading RFID applications, innovative high-theft solutions, and its Web-based Check-Net data management platform. As a result, Checkpoint customers enjoy increased sales and profits by improving supply-chain efficiencies, by facilitating on-demand label printing, and by providing a secure open-merchandising environment enhancing the consumer's shopping experience.
