

Brink's, Incorporated

555 Dividend Drive
Coppell, TX 75019
PH: (800) BRINKS-5 [274-6575]
us.salesinfo@brinksinc.com ■ www.us.brinksinc.com

Product Description:

With a comprehensive portfolio that includes cash processing and coin services, Brink's leverages the latest technology and secure logistics to help you take your cash from the point of sale to collected funds faster, more efficiently, and more securely than before.

Brink's Retail Solutions include:

■ **Brink's CompuSafe® Galileo:** This compact, modular safe is configurable to allow you to create a safe designed for your business. Optional storage and bulk note acceptors available.

■ **Brink's CompuSafe 4000:** With a 4,500-note capacity, this advance safe is ideal for cash intensive locations, protecting your cash from theft, and expediting funds processing.

■ **Brink's CompuSafe Daily Credit™:** Provides accelerated credit, through select partners, giving you faster access to your receipts.

■ **Brink's iDeposit™:** Automates the store-level cash deposit processes with Web-based deposit creation and tracking.

■ **Brink's ilfo™:** Real-time online reporting, monitoring, research, and reconciliation system.

Backed by the Brink's name that you know and trust, Brink's Retail Solutions deliver the speed, security, and accuracy needed to manage your cash — and your business — better.

Company Overview:

Brink's Retail Solutions combine secure transportation with powerful cash management services that accelerate funds availability, streamline cash handling processes, and give you unprecedented visibility into your cash position. Backed by the oldest and largest secure transportation and cash logistic company in the U.S., you'll also enjoy greater security and tighter control throughout the cash flow cycle.

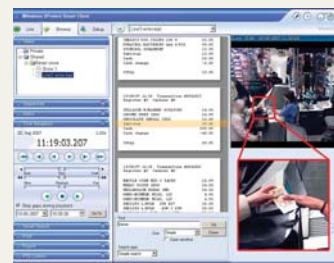

The Open Platform Company

Milestone Systems Inc.

8905 SW Nimbus Avenue, Suite 400
Beaverton, OR 97008
PH: (877) 350-1101 or Skype (503) 350-1100
hgb@milestone.us ■ www.milestonesys.com

Product Description:

Milestone Systems' XProtect Transact software visibly improves loss prevention through combining IP video with transaction data. The combination of digital video integrated with transaction data for simultaneous searching, viewing, and reporting is proving to be a solution that enables excellent detection of suspicious incidents.

The results are measurable. Improved procedures in hiring, training, and monitoring — specifically the use of point of sale exception reporting software coupled with video surveillance — have helped recoveries through employee theft apprehensions and restitutions.

XProtect Transact provides the following capabilities:

- Tracks goods all the way through the store — from receiving to sales
- Determines if items are "lost" in the storage/warehouse, shoplifted, or "mistreated" at the checkout counter (either in the sales process or as returned goods)
- Follows activities with visual verification
- Easily produces evidence
- Helps resolve wrongdoings before they escalate
- Enables fast searches with a query list that makes browsing easier
- Has an SQL database with support for Microsoft
- Manages loss prevention more effectively by combining transaction source data and digital video in one view to search, find, and resolve incidents fast.

Company Overview:

Milestone Systems is a global developer of open platform IP video management software. XProtect gives users a powerful surveillance solution that is easy to manage, reliable, and proven in more than 50,000 customer installations. With support for the widest choice in network hardware and value-adding integration with other systems like POS, people counting analytics, and access control, XProtect provides best-of-breed solutions to "video enable" organizations — reducing loss, optimizing processes, and protecting assets. Milestone software is sold through authorized partners in 100 countries. Download a free one-camera license of XProtect software to check it out for yourself at www.milestonesys.com.
